Normally, there are many problems during the implementation phase of the training and they vary from province to province. Some of the main problems are:

- Lack of proper place for training venue/hall to conduct the training workshop.
- No facilities to facilitate trainings (power, photocopying, accommodation) in this province.
- The reimbursement of travel expenses as per the government rules is much lower than the actual, because of which the participants will have to spend money out of their pockets.
- Based on the MRRD financial policy we can't pay for the travel expenses to those participants who come from villages less than 25km of the training venue creates problems all the time.

### **4.2 Recommendation**

Based on the above problem/challenges the trainers and participants explained the following suggestions and recommendations.

- District Governors must be invited to workshop in order to answer questions from participants
- Requested AIRD to conduct the similar workshop in future.
- Providing travel expenses to those participants who come from villages less than 25km of the training venue.
- Providing actual travel expenses to the participants, not as per the government rules
- Providing more training/workshop during winter season, because people at the rural area are free.
- Proper place for training venue/hall to conduct the training workshop.
- MRRD programmes should establish a working committee for capacity building to coordinate and sharing their plans in order to avoid duplication at different levels.
